## Statement of Intent

---

Hi! My name is Firaas Khan. I'm an emerging creative, having both graduated from Sheridan College and OCAD University. My interest lies in game development, with skills in unity programming and level design. I'm also energetic and capable of adapting to new situations, with excellent communication and interpersonal skills. As someone who wanted to get into game development since childhood, I am eager and self-driven to apply my skills to make experiences that people will remember for years to come.
